Are you a paraprofessional working with a student who has Down syndrome currently? If so, do you understand the unique learning profile of your student and how you can most effectively include, educate and enjoy your student? DS 101 for Paraprofessionals will cover the following topics:

- Common medical issues related to Down syndrome
- Communication issues and strategies for success
- How to improve social skills
- Processing time and memory issues
- Benefits of inclusive education
- Environmental issues which can hamper success
- Ways to adapt the curriculum
- Peer presentations to increase friendships
- Behavior intervention strategies
- Preferred teaching methods

Don't miss this chance to gain a better understanding of how the diagnosis of Down syndrome affects learning and how you can best support your student. Time will be allotted to answer attendee questions.

What are past attendees saying about this seminar?

"This was the most practical in-service I have attended in my career. I have great tips I can't wait to try with my student!"

"GREAT presentation! I appreciated having information and advice directed towards paraprofessionals."

"Anyone who works with a student with Down syndrome should be required to attend this seminar."

"Thank you for offering information and techniques that I can apply in my every day interactions with my student who has Down syndrome!"
